SUMMARY

I am a frontend developer with more than 1 year of experience, specializing in Tailwind CSS, Javascript, and React/Next.js. I also have some experience in fullstack web development and basic knowledge of MySQL, PHP, and Node.js. I have experience leading a team on a community project, strong critical thinking, and the ability to work effectively with teams.

EXPERIENCE

Frontend Developer
Badr Interactive | June 2022 - present

Badr Interactive is a company that provides IT consulting services for client companies by assisting clients in customizing technology solutions for websites and mobile applications so as to increase business effectiveness and efficiency.

- Build web applications using Next.js framework and Tailwind CSS.
